1 Type Written Life Satisfaction Survey
2 LSTW041 - Jon
3 SECTION 1 - Main Topics
4 Career:
5 On a scale of 1-10, how satisfied are you with your career path?
6 Answer: 7_
7 What is your career now or career you are working toward?
8 I am currently working to become a guidance counselor or school psychologist. I am interested in working in a school for both the benefits of my interest and the benefits of salary and time off. During my time off I would be able to partake in my other interest of DJing. Just like anyone else my career path decisions have varied over the years but now I think I have found one that will remain fixed. My mother is a guidance counselor and I have always enjoyed listening to her talk about her work, and also the amount of time her job has allowed her to spend with her family. Having the summers and other vacations off would also allow me to engage in having my own DJ company or owning my own club, two dreams of mine that I have always enjoyed.
9 Health:
10 On a scale of 1-10, how satisfied are you with your health?
11 Answer: 8_

Happiness does not remind me of one event. It makes me think of my life. Even though there are bad times, overall I am very happy with the way I turned out as a human being, and I like were my life is headed.
Sadness reminds me of the death of my grandmother (Dec. 90) and my grandfather (June 96). Their deaths effected my life greatly. They were like my second parents. These two times were definitely the worst times of my life
I really enjoy my home life and that is probably the main reason why I came back home after being away at college for a year. I was at Loyola College in Maryland last year and I was just unhappy. The thrill of being away lasted for a few months. Then all I wanted to do was come home. I attribute most of that to my home life. I often think that I live in the "Leave It to Beaver" home but we all have our problems. Sometimes those problems seem like the worst things in the world but when I actually think about what is really going on, things are not that bad. I could have it much worse. So yeah, I'm pretty happy at home I would
